

Each week, complete ONE of the Lemon & Herb tasks from the Homework Take Away Menu below. Then, on weeks where you have more time, choose a Mild, Hot or even an Extra Hot Task to do as well. We will share homework weekly and house points will be given out for homework completed well! Don't forget to try to do two Times Tables Rock Stars and Bedrock sessions each week, as well as Reading every night to an adult at home. *It really makes a BIG difference!*

Lemon & Herb

Weekly!

Write your own **Adventure Story** set in **Ancient Rome**. Who is your main character? What will happen to them?

*Remember to write plenty of descriptions, using good **grammar and punctuation**. Challenge yourself to use **Expanded Noun Phrases, Conjunctions and Fronted Adverbials!***

Design and make your own **musical instrument!**

*Think what we have learned about **Sound in Science** - how will your instrument make a sound? How can you make it louder in **volume** or higher / lower in **pitch**?*

Design your own **Roman mosaic!** You could use squared paper, or you could cut up your own coloured squares. Maybe you could even use real miniature tiles!

*Write a short description explaining how and where your mosaic will be used. Will it be in your Roman villa or maybe in a town square?*

Write a **newspaper article** about a historical character from **Ancient Rome**. Why are they in the news?

*Include specific, accurate information, with good **grammar and punctuation**. You could include images and/or quotes. Have a look at a newspaper for ideas!*

**Design** and / or make a **Roman building** using **3D shapes** or even **Minecraft!** How about a villa or an ancient temple?

*Look at your house and other buildings around - what 3D shapes can you spot? Cubes, cuboids, prisms, cylinders?*

Plan your own **menu** for a **Roman Banquet!** Research some popular dishes from 2000 years ago! What ingredients would have been available?

*Design and write out your menu - maybe you could even make it look **ancient!***

**Design** clothing and equipment for your own **gladiator** or a **soldier** in the **Roman legion**. What **weapons** would you use? What **properties** would they need to have?

*Draw and label your costume.*

**Cooking** - try making porridge or bread like the **Romans** used to do!

*Remember to take lots of **photos** and ask an adult to email them to the school or print them if you can!*

Write an alternative **blurb** for a book you have read recently.

*Write a summary of a book you have enjoyed. Use **persuasive language** to tempt someone to read it. Write 2-3 paragraphs.*

Practise your **times tables**. Times tables are really important! *Make sure you know them all by heart!*

*Use your **division facts** to practise **fractions** this term. What is  $1/4$  of 32? If  $1/4$  of 32 = 8, what is  $3/4$  of 32?*

*If  $1/5$  of 10=2, what is  $3/5$  of 10? How about  $3/5$  of 100?*

Write down different **number bonds**. Maybe two numbers which make 19, 33 or 72, or two decimal fractions which make 1.0, 2.5 or 5.3?

*Try the inverse subtractions as well!*

$16+3=19$  so  $19-16 = 3$   
 $16+17=33$  so  $33-17=16$

Practise the **Spellings** in your Homework book for this week. Write them in grown-up, descriptive or funny sentences!

*Can you include dialogue, a simile or a fronted adverbial? Don't forget to punctuate correctly!*
