

## YEAR 3 HOMEWORK GRID AUTUMN 2024-2025

Complete as many activities as you can this term.

You can bring your homework into school as soon as you complete it.

<p>Try to reduce the amount of food waste you produce.</p> <p>Create a list or produce a poster of the different ways to cut food waste or document how you have reduced food waste in your home.</p>	<p>Make up your own song to learn your times tables.</p> <p>Maybe you could record it or bring it in to share with the class to help them remember their tables too!</p>	<p>Write down different number bonds. Maybe two numbers which make 10, 100, 500 or even 1000? Try the inverse subtractions as well! <math>7+3=10</math> so <math>10-7=3</math></p>	<p>Stone Age people built shelters/dwellings from resources they gathered. Gather some natural materials and build a shelter.</p> <p>Make sure you take photos!</p>
<p>Create an information poster about the topic you are learning about in Science.</p> <p>Use any key terms you have learnt, make it informative and eye catching!</p>	<p>Create a leaflet of how to survive the Stone Age. Imagine you are transported back to the Stone Age and need a guide to help you survive. What would the key points be? What tips would you have?</p> <p>Use ICT if you can.</p>	<p>Create types of paint by crushing berries, grass, leaves and other natural materials.</p> <p>Use the paint to make a picture.</p>	<p>Practise your times tables. Times tables are really important! Write the multiplication and division facts for a different table each week. Learn your 3, 4 and 8 times table facts! If <math>3 \times 4 = 12</math>, what is <math>12 \div 4</math>? What about <math>30 \times 4</math>?</p>
<p>Create a poster with your ten favourite Stone Age facts and present it to the class.</p>	<p>Find different types of rocks in your garden or whilst out on a walk and talk about their different features.</p> <p>Try 'rock balancing' by stacking stones on top of each other and see who can balance the most!</p> 	<p>Imagine that you go back in time to the Stone Age. You can take one piece of modern technology.</p> <p>What would you take and why?</p>	<p>Design a healthy and balanced school dinner.</p> <p>Label the contents of your meal and the different food groups.</p> <p>Include a main meal, desert and drink.</p>
